

ROBIN CROW

ROBIN CROW AV REQUIREMENTS

Robin's needs are relatively simple - please provide the following:

- 1 wireless microphone on a stand at center stage
- LCD projection with a screen(s) as large as the room will allow
- Two (2) wireless microphones for audience Q & A (if applicable)
- Two (2) - two-way speakers on stands (basically speakers on poles will do) and 2 monitors (wedges)
- Basic stereo mixing console (example Mackie 1604) containing:
 - Two inputs for guitar pedal board.
 - One input for wireless head microphone, one for wireless stand.

AV crew preferably located at the back of the room so Robin can communicate with them

Robin Will Bring:

- His own head mike
- Thumb drive with video content for the presentation

NOTE: Should your staging and production be more elaborate, please notify Shannyn Downey – toll free 1-888-584-4177 – smd@robincrow.com.

When your production is more elaborate, there are a few more bells and whistles that we could add to make Robin's presentation even more impactful, just let us know what you have planned!

[Advance Date \(30 Days\)](#)

Approximately 30 days prior to event date, Robin will contact all persons in charge of sound, lights, & AV production to discuss any technical questions, issues & sound check times.
